

Commando Packaged Coldrooms

Where there's food there's Foster

COMMANDO PACKAGED COLDROOMS

Introducing Foster performance and reliability to the Packaged Coldroom Market.

The new Commando Packaged Coldroom range has been designed to provide one of the most flexible Coldroom solutions available on the market today. By listening to the caterers' needs and using 40 years of coldroom experience, we have taken all the inherent complexities of Coldroom installation, operation and reliability to create a simple Coldroom system that addresses the demanding requirements of today's foodservice professionals.

Maximise your storage potential

- Perfect where space is at a premium - in pubs, colleges, restaurants and takeaways. Even with limited space and budget, caterers can now benefit from the increased storage capacity of a coldroom

Remote Heat Extraction System

The refrigeration system that works even in high ambient temperature environments

- Water-cooled heat-removal system as standard
- Cost-effective, simple solution for removing heat from the kitchen, increasing reliability and reducing maintenance and energy usage
- Simple installation, even if located outside, reduces installation and commissioning costs and minimises disruption
- Once operational, the system offers environmental benefits with lower running costs and noise levels

The Complete Package

- The Commando Packaged Coldroom comes as a complete kit including coldroom panels, panel mounted refrigeration system, remote heat extraction system, shelving and installation kit
- As well as the coldroom, Foster offer full site supervision including an initial survey when installation is purchased

15%
saving
over traditional
remote systems

Quality Construction

- Every build aspect of Commando Packaged Coldrooms has been designed to give the foodservice professional, years of reliable operation
- The Commando construction system utilises the tried and tested Fosterlok system, ensuring hygienic, secure fixing to all panels
- From the heavy duty, lockable door handle to the 75mm Coldroom panels fully camlocked for strength and rigidity, the Commando build ensures strong, hygienic joints, eliminating the need for gaskets, cover strips, screws or rivets

Quick & Easy to Install and Service

- New, heavy duty, efficient refrigeration system supplied ready installed into the front panel of the coldroom saves energy and its costs effective operation ensures even temperature in the coldroom. The internal refrigeration system does not take up valuable kitchen space and is also protected from potential damage
- Commando coldrooms also use flexible hoses for remote system fitting, so no hot gas permits required for installation
- 13 amp single phase electrical supply on all models - no specialist electrical work required
- No drainage required, aiding the fast installation of your Commando coldroom
- Hinged unit cover on the refrigeration system ensures easy access on site for servicing. This system keeps the compressor within the kitchen therefore reducing external noise issues

208 CONFIGURATIONS
MODELS

Features & Benefits

- 20 off-the-shelf sizes from 4m³ to 10m³ capacities
- Refrigerator (+1/+4°C) and Freezer (-18/-21°C) temperature ranges from the same refrigeration module for added flexibility
- Suitable for ambient operation up to 32°C
- Overall height of only 2.1m
- Floored and floorless models available; Floorless for refrigerator only, floored for refrigerator or freezer
- White, foodsafe laminate finish to the exterior and interior
- 75mm insulated floor delivers thermal efficiency
- Non-slip, rigidised galvanised floor as standard providing heavy duty strength and safety in use
- Lockable, right hand hinged door as standard, left hand hinging optional - please specify at time of ordering
- Door comes with internal safety release handle for added safety in use
- Pre-fitted interior light as standard with a separate light switch for easy use
- Microprocessor control with digital display ensures constant visibility of temperature, recessed to prevent damage
- Heavy duty, 4 tier, nylon coated racking supplied with all coldrooms (see layout)

20 Storage Capacities

The Commando Range comprises 20 off-the-shelf sizes. Each of these packages is then available as either a floored or floorless refrigerated coldroom, or as a floored freezer coldroom.
