

"As a chef, to design one's own suite is literally a dream come true. The induction tops make working conditions better for the team; they are cooler to work on and simple to clean. My Bonnet suite does exactly what I need it to do and now I can begin to enjoy the Eastside Inn."

Bjorn van der Horst, Chef Patron, Eastside Inn

Flexible, versatile and easy to use, if you are looking for superior quality cooking equipment look no further than the Maestro from Bonnet. Tailor made for your kitchen and your needs, the Maestro is a unique heavy duty solution, made to fit seamlessly into the heart of your kitchen. The ultimate range, with plancha option, induction units and salamander grills, the Maestro blends ergonomics with autonomy to improve organisation and provide consistently high quality results and high-speed delivery.
